TECHNICAL SKILLS

Programming & Frameworks

✔ JavaScript, TypeScript, React.js, Next.js, Node.js

✔ Node.js, Express.js, MongoDB

✔ RESTful APIs, PostgreSQL, WebSockets

Tools & Platforms

✔ Git, GitHub, VSCode, Postman

✔ AWS (S3, EC2, Lambda), Docker

✔ CI/CD, Firebase, Stripe API

Other Skills

✔ Software Architecture & System Design

✔ Database Design & Optimization

✔ Cloud & Serverless Development

EDUCATION

🔶 **B.Tech in Mining Engineering**
Federal University of Technology, Akure
2016 - 2022   *Ondo, Nigeria*

Senior School Certificate Examination
Lagos State Model College, Meiran
2013   *Lagos, Nigeria*

PROFILE

Innovative **Full Stack Developer** with 4+ years of experience building scalable web applications. Proficient in **JavaScript, TypeScript, React.js, Node.js, Next.js Express.js, and MongoDB**, with expertise in software architecture, APIs, and cloud platforms (AWS).

Passionate about solving complex problems, optimizing performance, and leading teams. Successfully developed and deployed multiple full-stack applications, including expense trackers, automation bots, and learning management systems.

Open to remote, hybrid, or on-site opportunities worldwide.

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer

Fiverr   2021-Present

- Developed 10+ full-stack web applications for clients, including e-commerce sites, dashboards, and automation tools.

- Built an AI-powered chatbot for social media auto-posting, to increase user engagement by 30%.

- Designed and deployed a Learning Management System (LMS).

- Led team-based projects with designers and backend developers, ensuring on-time delivery and optimized performance.

Web & Software Developer

1306 Creatives   2024 - Present

- Develop custom web applications and software solutions for client projects assigned by 1306 Creatives.

- Collaborate with UI/UX designers and project managers to translate business requirements into functional applications.

- Optimize backend performance and database queries, reducing response times by 40%.

- Implement security best practices for API authentication and data encryption.

✉ olowoyoloseyi@1306creatives.ng

Team Lead, Software Developer

Gomycode (Gmc)   2024

- Led a team of 5 developers to build an Admin Role Management System using React.js, Node.js, and MongoDB.

- Developed a music player web app, integrating a streaming API for seamless playback.

- Conducted code reviews and mentorship, improving team coding standards and efficiency.

PROJECTS

Full Stack Expense Tracker (React.js, Node.js, Neon, Clerk)

- Designed and deployed a secure personal finance tracker for budget management and expense categorization.

- Integrated Stripe API for payments and user subscriptions, to increase paid users by 20%.

X Bot Auto-Poster (Typescript.js, MongoDB, X Api)

- Built a bot that automates social media posting with real-time scheduling, boosting content engagement by 30%.

LMS Web Application (React.js, Node.js, PostgreSQL, AWS)

- Created a Learning Management System supporting course uploads, quizzes, and student progress tracking.

Text-to-speech TTS Full-Stack Application (Node.js, Express.js, MongoDB, Google API)

- Created a Learning Management System supporting course uploads, quizzes, and student progress tracking.

DEAR HIRING MANAGER,

I am writing to express my keen interest in joining your organization as a **Full Stack Developer**. With **4+ years** of hands-on experience in web application development, I bring expertise in **JavaScript, TypeScript, React.js, Node.js, MongoDB, and AWS**. Having worked as a freelancer and team lead, I have successfully developed and deployed applications that solve real-world problems.

In my previous projects, I have:

✔ Built **scalable, high-performance web applications** for startups and businesses.

✔ Led development **teams in collaborative environments**, ensuring efficient workflows and best coding practices.

✔ Designed and optimized **backend architectures and cloud-based solutions** for seamless functionality.

I am passionate about **building impactful technology solutions**, and I thrive in fast-paced, innovative environments. Given the opportunity, I am confident in my ability to contribute to your development team's success.

I look forward to discussing how my skills and experience align with your company's goals. Thank you for your time and consideration.

SINCERELY,

Ajibade Akinola
